

# IMPACT REPORT 2023

# “LET THE NATIONS REJOICE”

ISAIAH 12

## OUR HISTORY

We began in 2008 with a prayer for the nations and the generations to know Jesus and to make Him known.

Our continuing heart and prayer is that the nations rejoice - from generation to generation.

## OUR VISION

We empower church leaders who serve vulnerable communities to Transform Lives, Restore Hope, & Multiply Disciples.

## OUR MISSION

We partner with the church to strengthen the community through holistic discipleship, mobilized care, and community development.

## THANK YOU!

We are so grateful for your partnership through prayers, giving, and participating in events to advocate for the vulnerable! You have made a significant impact on lives across Kenya training church leaders in the Word, providing safe, clean water, and investing in the generations through various initiatives.

Thank you for empowering the church to restore hope through spreading the gospel.

## LOCAL MINISTRY EVENTS

2nd Annual Love Gala

New Partnership for  
3rd Annual Clean Water 5K

Ministry Partner Event

# Individual Stories of Impact

Miriam is a survivor who has overcome tremendous adversity in her life. Educational support allowed her to attend University, and she graduated in October 2023 with a degree in Human Resources. Miriam is now working in a post-graduate internship in her field!

In 2023, local Water ambassadors took full leadership of their water program in the Ngaamba community. These teams facilitated all of the water distributions, trainings and follow-ups!

Daniel and his family live in a community with limited access to clean water. They received a water filter in January 2023 and immediately noticed a reduction of illness. Daniel, a double amputee, was also provided a walker which has been life changing.

## Hear from our Ministry Partner

*Thank you!*

**"I spent time with the Kenyan Water Ambassador team from Choose To Invest, worshipped and prayed with them. It was such a blessing to watch their commitment as they prepared to teach the families about water and how it can be contaminated. I am SO encouraged by the way Choose To Invest runs this water filter distribution program.** They survey each recipient, ask how many times a month they have to take their family to the hospital for illness caused by dirty water (1-3 times per month), and have them agree to high accountability to the water ambassador team for the filters, and the recipients agree to the follow-up visits.

In the midst of a community lacking the greatest basic needs, I have witnessed the people who have a joy that surpasses all understanding. I watch them worship and praise and speak of God's faithfulness. They introduce themselves and say, "all the glory to God." - **Kelly (Ministry Partner since 2011)**

**FOR YOUR CONTINUED PARTNERSHIP & CHOOSING TO INVEST**
